

July 17, 2017

To whom this may concern:

We, JYE Tech Ltd., hereby confirm that the DSO Shell kit that has the appearance showing in the following two photos **IS NOT** a product of JYE Tech. Instead, it is a counterfeit product that pirated the JYE Tech design and illegally sold in the name of JYE Tech without JYE Tech authorization. The AliExpress stores named

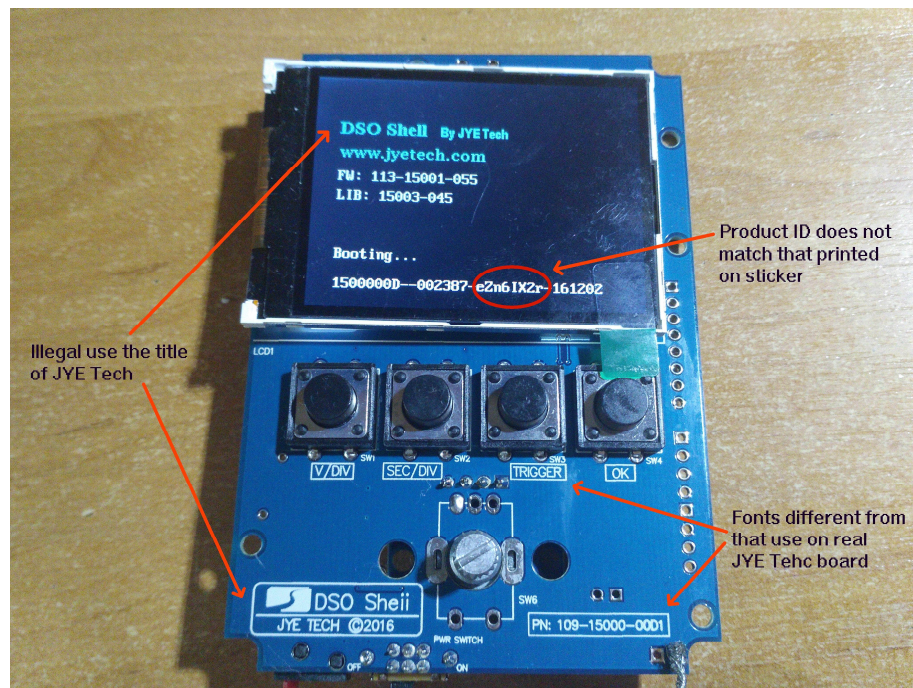

All Sean Store,
All Sea Store,
100 Percent Store, and
Sunsunsun Store,

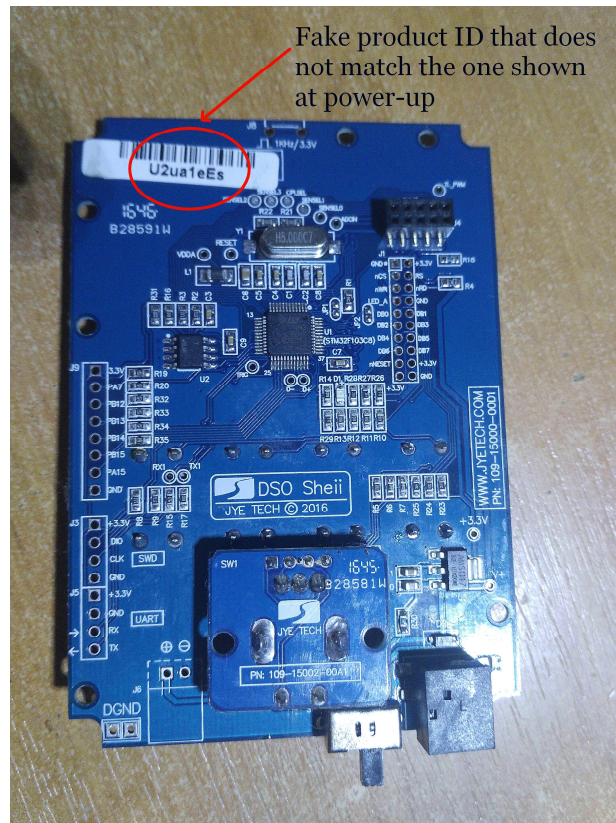

which sell the counterfeit product, have nothing to do with JYE Tech.

The above confirmation is based on the following findings.

1. The counterfeit board looks like JYE Tech's board but uses different fonts. .
2. However, the counterfeit board is illegally sold with the title of JYE Tech on it without JYE Tech authorization.
3. On counterfeit board the product ID shown on the sticker does not match that displayed at power up screen.
